

*It is a great pleasure to welcome you to Paris for the 6<sup>th</sup> European Meeting on Laparoscopic and Robotic Urologic Surgery. "Challenges in Laparoscopy and Robotics" has evolved from an initial exciting activity to a well established encounter of state of the art and future in Urology.*

*This meeting is intended to bring together Technological Advances, Education, and Communication in order to increase knowledge of ongoing research and clinical activities.*

*The comprehensive scientific program will include live laparoscopic and robotic surgery performed by the world's most prominent urologic surgeons and a series of round tables on the hot topics in our specialty.*

*In the past meetings, we have witnessed many challenging Laparoscopic procedures and it is time to expand our indications and to look forward to new challenges.*

*Live surgery, discussions and thought-provoking debates will take place with participation of the best urologists in the international arena.*

*We are very proud to host this 6th International meeting in Paris, the city where Urology was born and where progress never ends.*

*We hope that the challenging procedures that you will see will lead the way towards defining the future of Urologic Surgery.*
