Challenges in  
Laparoscopy & Robotics

Since 2004 - Vincenzo Pansadoro Foundation

**D**ear Friends & Colleagues,  
we are thrilled to invite you to Florence for the 21st annual edition of the world's leading live surgery meeting in laparoscopic and robotic urologic surgery, *Challenges in Laparoscopy & Robotics (CILR)*.

*Reaching this milestone is a true testament to the outstanding live surgeries and dynamic discussions we've shared over two decades, constantly learning from one another.*

*Since its inception, our vision for this event has only grown stronger and more relevant to the evolving field of surgery.*

*In 2004, we began with Challenges in Laparoscopy (CIL), and as robotic technologies advanced, we expanded into Challenges in Laparoscopy & Robotics (CILR).*

*Now, 20 years later, artificial intelligence (AI) is revolutionizing the medical world, and we are excited to introduce Challenges in Laparoscopy & Robotics-AI (CILR-AI) for this year's event.*

*We have prepared a rich, comprehensive scientific program for you.*

*As always, the highlight will be our signature live robotic and laparoscopic surgeries with the world's top urologic surgeons, displayed concurrently on three large screens.*

*These will be complemented by 25 "semi-live" complex and uncommon surgeries, recorded over the past year and presented by the surgeons themselves.*

*You'll be equipped with headphones to tune into the screen and discussion that interests you most, with live moderation to guide the experience.*

*Looking ahead to 2025, we are excited to introduce cutting-edge AI applications with immediate relevance to your daily practice, no matter where in the world you work.*

*This year's live surgeries will push the boundaries of modern urology, featuring advanced procedures such as robotic kidney transplantation and auto-transplantation, bladder transplantation, complex partial nephrectomies, inferior vena-cavectomy with prosthetic grafting, radical nephrectomy with en bloc distal pancreatectomy and splenectomy, radical and salvage prostatectomies for locally advanced cancers, gender reassignment surgery, and much more.*

*These procedures will not only enhance your skills but also expand the horizons of robotic and laparoscopic urologic surgery.*

*The 21st edition of CILR-AI promises to be our best yet. We eagerly await your arrival in the stunning city of Florence, set against the breathtaking landscape of Tuscany. Together, let's experience a high-tech surgical spectacle like no other.*

*CILR-AI 2025 is set to be nothing short of magical—the Super Bowl of Surgery, and the premier live urologic surgery meeting in the world.*

*The future is now!*

*Join us and be part of it!*

*Warm regards.*

*Inderbir Gill*
